

THE PAMELA C. HEBERT GARDEN OF YOUTH AWARD

A certificate and fifty dollars may be awarded annually to a state garden club project. Each state club may submit one club project selected by the State Garden Club Awards Committee. This award is designed for club members to work with children – our future garden club members and stewards of the land. This will involve a beautification and a youth educational project combined into one making the project an educational experience or venture for the youth. This is a continuance of our Unified Project 2005-2007 “SPROUTS”. “The greatest gift we can give to our children is time .. our time” ...so together we can continue to encourage our children to stop – look – and learn.

SCALE OF POINTS:

Presentation:	Documentation using colored photographs (can be digital) of garden and Project (before and after) with descriptions. Sketch of garden plan	20
