

DONATE TO THE GARDEN CLUB FEDERATION OF MAINE

The Garden Club Federation of Maine sponsors many special projects that impact Maine communities. Each project is intended to make a positive impact on our local communities and provide ways for our garden club members to get involved, contribute with volunteer hours, network and support GCFM.

Outreach Projects:

- Habitat for Humanity landscape projects for families moving into a new habitat for humanity home.
- Youth gardening programs help teach the youth about gardening. A National Garden Club Girl Scouts Native Plants Badge is offered to study native plants to establish native beauty in our communities.
- President's projects that offer ways to be stewards of our planet earth today and tomorrow.
- Community Projects that offer funds and materials to help beautify the local communities.
- Scholarships are offered by GCFM to students majoring in fields of study related to horticulture and the environment. Applicants must be planning a career related to gardening, landscape design, environmental issues, floral design or horticulture. Guidelines and application forms can be found under the Scholarship tab.

To Make A Donation

Complete the form and make check payable to **Garden Club Federation of Maine.**

Mail check and completed form to:

**GCFM Treasurer
380 Warren Ave Box 4
Portland, ME 04103**
